

# Steel Signing Celebration – A Moment in Our School's History

This afternoon, some pupils had the wonderful opportunity to take part in a special steel signing event on the construction site of our new school building.

Each child was invited to sign one of the steel beams that will become part of the final structure – a unique way for them to leave their mark on the future of our school and create a lasting legacy within the fabric of the new building.

The activity was safely supervised by school staff and the site team, with all appropriate safety measures and PPE in place. Pupils were escorted to and from the site, and the event took place during the school day.
