DESCRIPTION

This report shows the final destination of the students within your school.

This is shown through historic and characteristic analysis.

It includes breakdowns based on:

- September Guarantee data and how the actual destinations correlated
- Destination data for the current and 2 previous years
- Raising the participation Age compared with Lincolnshire and National figures

Please find further descriptions within the report above the appropriate tables.

Raising The Participation Age - Year 11

The 2024 leavers fall under the Raising the Participation Age legislation, requiring all leavers to stay in learning until their 18th birthday. The table below shows those students who left statutory education in 2024 and their level of participation as at 1st November 2024. This is shown against the county figures for comparison.

NB: From December 2024 LA Table Data.

Young Persons Status

NB: Please note there may be some differences in young people’s destinations when comparing historical data against previous years reports. This is due to our national client caseload information system continuously being updated with information. For example, when the 2023 version of this report was published we may not have known a young person’s destination but have since been able to establish the young person's situation.

National and Statistical Neighbour data comes from Local Authority tables published by the DfE on a monthly basis.

Year 11 Leaver Destinations

The table below shows a summary of the situation of the Year 11 leavers as at 1st November 2024 and historically over the previous 2 years.

*due to circumstances beyond control of UALS published data is different to actual data. Documentation can be provided to quantify these measures.
